

*Supporting the Use of Research Evidence*

# The SURE Guides

These guides are intended for those people responsible for preparing and supporting the use of policy briefs and ensuring that decisions about health systems are well-informed by research evidence. The guides focus specifically on these issues in the context of African health systems and the examples used are taken from policy briefs that address important problems in African countries.

NB.: your local security settings may block some of the SURE Guide's content because it uses something called Active X. It's usually possible to solve this by right-clicking on the banner at the top of the browser where the message about blocking content is displayed and then selecting 'Allow Content Blocked'.

If you need any more help then send an email to: [sure.guides@nokc.no](mailto:sure.guides@nokc.no)
